## STEEL BLUE LEGENDS.

**Glen Jakovich.**  
Glen was recruited from South Fremantle in Western Australia and debuted in the AFL with the West Coast Eagles in 1991. He played most of his career at the Centre Half Back position and was selected in that position in the All Australian teams of 1994 and 1995. Jakovich's list of career achievements are both numerous and impressive and could have read much better if not for a knee reconstruction after Round 12 in 1996. His stellar career includes 276 matches – a club record, two-time premiership player (1992, 1994); West Coast Eagles Best & Fairest 1993, 1994, 1995 and 2000; and AFL Hall of Fame Inductee 2008. At his peak, Glen was considered one of the best players in the competition. He retired from football in 2004 and has pursued a successful media career.

**2 DRILLING RECORD AT BODDINGTON**

**5 Q3 JWB AWARD WINNER**

**6 BEYOND BLUE FUNDRAISER**

# A MESSAGE FROM OUR CEO

## WELCOME TO THE 10<sup>TH</sup> EDITION OF DRILLTORQUE

Believe it or not... Christmas is approaching. Which means this is our last edition of DrillTorque for 2021.

### **BODDINGTON RECORD**

Our feature story this issue focuses on the excellent results our Boddington team achieved recently, setting a new site record by delivering almost 3,000 metres and achieving almost 200% of target in a 24 hour period. Well done to the entire team.

### **MENTAL HEALTH WEEK FUNDRAISER**

Thanks to everyone who donated via our donation page, and congratulations to James Thomson and Luke Fletcher, the lucky winners of the signed boots and Eagles guernsey.

The auction proved a great success and with JSW committing to match the winning bids in a donation to Beyond Blue, all up we raised \$1,400!

### **COVID-19 VACCINATIONS**

I would like to thank everyone for getting behind the vaccination program, implemented in accordance with the state government guidelines. Not everyone in our team was able to comply, but we respect everyone's right to make their own choice.

For the majority of people who have chosen to get their first jab, can I please remind you that it is mandatory for all mining sector workers to have received their second dose and be fully vaccinated by 31 December.

We strongly encourage everyone to get double dosed as soon as possible.

### **JWB AWARD WINNER FOR Q3**

Our Q3 JWB award winner is Matt Mudge! Matt has been recognised for his exceptional level of commitment, putting in extra time on site when we have been short of drillers. Congratulations, Matt!

Finally, on behalf of the senior management team, we wish everyone and safe and happy Christmas and New Year.

Best regards,

**WARREN FAIR – CEO**

(L-R) James Greive (Driller), Simon Jenkins (Driller), Ryan Mosedale (Project Manager), Steve Milentis (Fitter), Michael Ainsworth (Driller), absent – Andrew Ross (Driller).

## DRILLING RECORD AT BODDINGTON

### 2016 RECORD SMASHED

**Our drilling team at Boddington set a new site record on 19 September, delivering almost 3,000 metres in a 24 hour period!**

The stars aligned with all rigs on site drilling in one location at Southwest 11 pit over the 24 hour period. Drilling conditions were very favourable due to the flat terrain and the consistency of the overlying cap rock. Thanks to our client, South 32, the drill area had been well prepared with very little exposure to the typical pea gravel pockets sometimes encountered in the region.

Over the 24 hour period, the drill crew averaged over 80 metres per hour and 720 metres per shift, while the maintenance team achieved availability of over 96% – an outstanding effort by the entire team.

With the addition of a good dose of healthy competition between our three day shift teams, operating Montaberts and GD5000s, we had all the ingredients for a great day of drilling!

Across 24 hours (three day shifts and one night shift), the crew beat the previous record of 2,882 metres, set almost exactly five years earlier on 21 September 2016.

### LONG RUNNING PROJECT, LONG STANDING TEAM

With a project start date of 2013, Boddington is one of our longest running projects and it is our longest drill and blast contract.

Our 14-strong team has benefited from the stable project management of Luke Clarke and Ryan Mosedale – two great examples of where a career at JSW can take you!

Luke first started with JSW in October 2013 at Boddington as a driller, before being promoted to supervisor and then project manager in 2016.

Ryan started with JSW in 2015 as a fitter at Carina Iron Ore before being transferred to Boddington where he was promoted to project manager in 2018.

A fantastic effort everyone!

## SERVICE TRUCK UPGRADES AT BODDINGTON

### IMPROVING SAFETY AND ERGONOMICS

Boddington's service truck recently underwent a number of upgrades, improving safety, functionality and ergonomics.

Ryan Mosedale, Project Manager and Steve Milentis, Maintenance Fitter/Supervisor took the initiative to carry out a range of upgrades on the service truck HV046, to maximise safety and ensure it was working at its best.

The upgrades included the replacement of safety decals, the addition of a spill kit in the cab, making sure drums and smaller foam drums were on board and clearly labelled, clearing walkways in the tray, checking the SDS box was safe and secure, securing consumables and of course adding our new logo.

Thanks, Ryan and Steve for demonstrating outstanding initiative alongside our values; passion, collaboration, determination and safety.

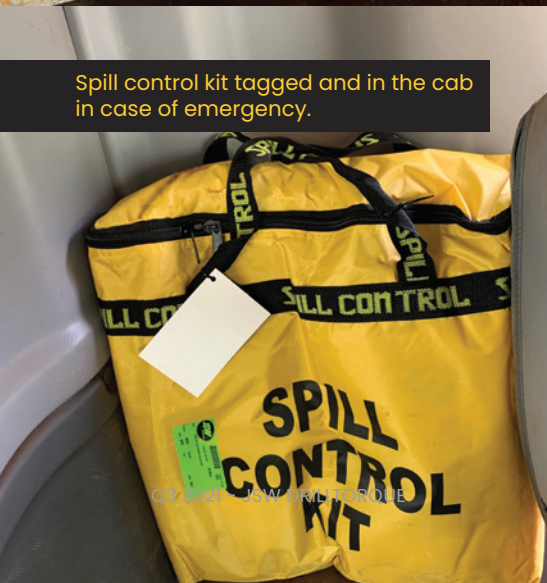

Safety decals on display.

Drums arranged neatly and clearly labelled.

HV046 ready to roll, post upgrade!

Spill control kit tagged and in the cab in case of emergency.

Consumables secured for safe and easy access.

Equus rigs, fully maintained and ready to tackle a new season of drilling.

Mitch Cunningham and Jim Hutchins practicing their first aid skills.

## RIG REBUILD

### RG019 GETS AN UPGRADE

Boddington's RG019 recently underwent a mid-life rebuild to maintain the rig's productivity, efficiency and longevity.

In order to carry out the rebuild, the rig was disassembled to separate the carrier and the mast. The mast remained on site at Boddington and the carrier was transported to our Bibra Lake workshop.

Crews at both sites conducted extensive works on the rig, including replacing the engine, structural repairs and repainting.

Once the works were complete, the carrier was transported back to the Boddington workshop to be reassembled.

RG019 in the Bibra Lake workshop with the carrier engine removed.

The assembled mast at Boddington.

## DRILLING SEASON BEGINS

### WELCOME BACK, ALCOA CREW!

Crews in the southwest have returned to site as the new drilling season begins.

At the end of last quarter, the drilling season at our Alcoa operation wrapped up for two months of shutdown over winter. During this time, maintenance was carried out on the rigs and light vehicles to make sure they were ready for the new drilling season.

Operations commenced again in late August, with a number of new personnel joining the crew, who will be trained by senior employees to ensure they have the skills and knowledge needed to safely carry out operations on site.

Rebuilt and ready to drill.

#### Upgrades to the carrier included:

- Replacement of engine and pumps
- Rebuild and replacement of lift cylinders
- Re-wiring of carrier
- Re-hosing of carrier
- Service coolers
- Structural repairs
- Sandblast, paint and replace decals

#### Upgrades to the mast included:

- Upgrade of feed rail
- GD5000 centralizer and foot mods
- Structural repairs
- Line boring of all pivotal components
- Complete re-hose of CPA
- Complete re-wire of CPA
- Reinforced mast rest legs
- Paint and replace decals

## MENTAL HEALTH FUNDRAISER

### SUPPORTING BEYOND BLUE

**Our fundraising auction and donation page raised a total of \$1,400 for Beyond Blue in October!**

During October, we asked everyone to show their support for Mental Health Week and Beyond Blue (an organisation dedicated to helping everyone achieve their best mental health) by donating to our fundraising page or by taking part in our auction.

Congratulations to James Thomson and Luke Fletcher, who were the highest bidders in our online auction. James took home a pair of Steel Blue boots, signed by two Aussie sporting legends, former West Coast Eagles star, Glen Jakovich and cricketer, Dennis Lillee. Luke was the highest bidder on the framed West Coast Eagles guernsey, signed by the 2017 team. Thank you both for your generosity and support.

The winning bids were matched by JSW, bringing the total of our combined donations from the auction and fundraising page to \$1,400.

Thank you to all who generously donated throughout October. All proceeds from the donations page and winning bids will help Beyond Blue to continue their great work in breaking the stigma around mental health and making a difference in the lives of those who may be impacted by anxiety, depression and suicide.

### SOLOMON SHOWING THEIR SUPPORT

The crew at Solomon showed their support by donning blue hi-vis shirts throughout October as a means of raising awareness and starting the conversation around mental health. Some members took the opportunity to share their own personal stories, a meaningful and moving experience that showed no one has to struggle alone.

## CONGRATULATIONS TO MATT MUDGE, Q3 JWB AWARD WINNER

**Matt has been recognised for his outstanding commitment to JSW and ongoing hard work.**

A huge congratulations to Matt on being named as the Q3 winner of the quarterly JWB Award.

Matt joined Strange Drilling in 2008, working as an Offsider at the Norseman project and has since progressed to his current role as Driller based at Youanmi.

He has been recognised for his willingness to work extra weeks on site when required, operating Rig 13 at our Tampia project in Mt Magnet to cover when we are short of drillers.

Matt is a fantastic example of our values, passion, collaboration, determination and safety and an asset to the JSW team.

Thank you for your commitment, Matt. We look forward to celebrating many more of your achievements in the future.

Matt with his trophy and certificate!

### Q&A WITH MATT

**Q: Tell us what you think makes a good leader?**

**A:** I think decision making abilities play an important role in leadership, also a good understanding and showing action of duty of care from both an employer's and an employee's perspective.

**Q: What is the best piece of advice you have received?**

**A:** If something doesn't seem right to you, take a step back and think about it.

### HR UPDATE

## 5 & 10 YEAR SERVICE ANNIVERSARIES

**CONGRATULATIONS TO JOHN, DARREN & JAMIE!**

5 and 10 years of service is a milestone achievement and we thank you for completing it with us.

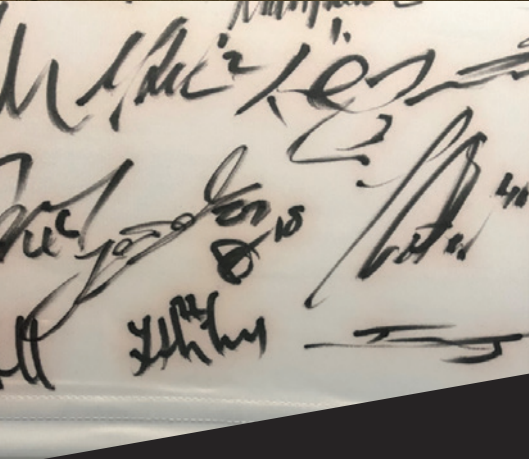

### 5 YEAR MILESTONES

NAME	START DATE
Darren Dennett	8 August 2016
John Kennedy	12 September 2016

### 10 YEAR MILESTONES

NAME	START DATE
Jamie Pitman	29 August 2021
