

Minimising our impact on the natural environment is integral to the way work.

We are committed to:

- Promoting the sustainable use of natural resources in our work flows by demonstrating a commitment to reduce our environmental footprint.
- Meeting the requirements of ISO 14001 (Environmental Management) and fulfilling our legal obligations.
- Exceeding the expectations of our stakeholders.

To achieve this, we will:

- Establish and monitor measurable environmental objectives and targets.
- Identify, evaluate, and manage environmental risks that flow from the work we do.
- Design, maintain and operate our plant to minimise environmental risk.
- Integrate environmental impact into our decision-making and operational activities.
- Maintain a workplace culture that promotes the reduction of our environmental footprint and fosters accountability for the sustainable use of natural resources.
- Ensure all workers including employees, contractors and consultants are informed, trained, and supervised to meet their obligations under this Policy.
- Consult and communicate with stakeholders, including clients and suppliers on matters relating to minimising our impact on the natural environment.
- Regularly review our progress, ensuring that this Policy and our management systems remains relevant to our business and stakeholders.

Minimising our impact on the natural environment is the responsibility of everyone at JSW Drilling. We can all have an impact on reducing our environmental footprint through our decisions and the actions we take.

On behalf of the Board of JSW Drilling.

Keren Paterson
Chief Executive Officer & Managing Director
