

SOLOMON MINE

Client: FMG
Location: Hamersley Gorge, WA
Commodity: Iron Ore
Project Start Date: July 2015
Project End Date: Current

Project Description

JSW performs work at Solomon through its joint venture partnership with Traditional Owner group Eastern Guruma.

Equipment

- BBURG HD2500RC
- 4x track mounted RC drill rigs
- AWD support trucks

Value add

To overcome the challenging terrain at Solomon, JSW developed the automation capable BBURG HD2500RC which continues to deliver exceptional results across safety and productivity.

Scope of Works

- Grade control drilling using custom built RC drill
- Specialist grout wall drilling
